

Free Mac Smart Card Support for Federal CAC and PIV Card Users

Centrify Express for Smart Card is a complimentary version of the same enterprise-hardened Centrify Smart Card technology used in federal agencies that require authentication for CAC, CAC NG, and PIV smart cards.

Built and supported by a US-based company, Centrify Express for Smart Card enables federal, military and contract employees to access protected websites, VPNs and secured email through their Mac devices.

With Centrify Express for Smart Card, you can:

- Easily and securely access critical online resources.
- Send and receive confidential email from home or other remote locations using their Mac systems.
- Maximize productivity through increased mobility and flexibility.
